

ACADEMIC REPORT FOR CHIKUMBUTSO KUNJE

My name is chikumbutso kunje one of the beneficiaries for AMECA FOUNDATION here in Blantyre Malawi, I did Diploma in clinical medicine Mature Entry at Malawi Adventist university, Malamulo collage of health sciences campus. From 22 august 2022 to 7 march 2024.

I find it easy to study after securing scholarship during my study because I received a modern laptop which I use for studies and writing assignments, laptop bag and provision of tuition fees, these made my study easy because I had time to concentrate on my study rather than searching and thinking about where to get fees.

Some of the challenges at the institution is the shortage of accommodation in school hostel which forced some of us to rent surrounding places around campus which is at the distance and risky in terms of security of our properties.

This scholarship has helped me personally because now am equipped with knowledge and skills to help patients and clients in our community where we work. Continue doing this to other needy students,

Your' s faithfully,

Chikumbutso kunje.
