

THE AMECA'S BIG HAND

Today as I am standing on feet as a strong man, smiling as I remember what my life has gone through the past 3 years, I thank God through how *Ameca Trust* has lifted me on it's Shoulder. I was on a verge of dropping out from College, the Malawi College of Health Sciences, from which I was pursuing a Diploma in Clinical Medicine a 3 years program.

I had no funds for my tuition fees, had no place in mind from where I could source even part of fees, this has a negative impact on both my parents and I was affected physically and psychologically, I lost the courage for my studies, 'where can I get the fees and how am I going to square the outstanding balances with the College?' was a question of day and night I ask myself. I watched almost everyone seated comfortably as the Registrar of the Campus stood in front, 'today was your last day of the grace week to settle your fees,' it was the message he delivers when he set his feet under the roof of our class, 'this is my message,' I thought to myself.

God will make a way where seems to be no way, has always been just a mere song until this day I learned about *Ameca Trust* from my friends who was on *Ameca Sponsorship*, I got the contact of the CEO of *Ameca* and with no hesitation I contacted her, 'Okay Thomson I hear your story, we'll meet at your School to have your fees settled,' was her response and I was once again a happy student though I was sceptical to believe. Thank God she came and settle all the balances and give me a laptop and I instantly started staying at the Campus, life changed.

As I am speaking my family, the community and Country at large have gained a clinical officer through *Ameca Trust*, I really appreciate for the wonderful support rendered to my family, community and I myself, words cannot express how grateful am I other than swearing to work in the best interest of patients. For that I wanted to extend my gratitude *Ameca Trust Scholarship* for your generous and selfless contribution towards my education may the Good God keep on blessing you.
